

Online ERP Certificate with SAP

Set yourself apart with a well-respected undergraduate certificate delivered through Penn State World Campus. SAP is the leading Enterprise Resource Planning (ERP) software company. This program can teach you how to better manage business operations for your company using the latest SAP S/4HANA software to give you a competitive edge in your current job or set you up for career advancement in a variety of industries.

This 9-credit certificate teaches applied business concepts using SAP as a teaching tool and includes numerous hands-on SAP exercises. The certificate is ideal if you are seeking to move into, or are completing a degree in, business management, operations analysis, computer software, or information systems.

The SAP University Alliance allows this program to integrate the most recent SAP technologies into courses that introduce you to the latest ERP innovations and help develop critical technology skills.

Program Benefits

- › Differentiate yourself in a competitive job market; acquire a skill set valued across a wide range of industries
- › Learn through convenient online courses taught by experienced faculty
- › Enhance your résumé with a respected certificate from an accredited university

Courses

This three-course* program is designed to provide you with foundational knowledge of SAP.

MIS 404: Introduction to ERP and Business Processes

A problem-based, interdisciplinary course on ERP concepts and business processes.

SCM 445: Operations Planning and Control

Aggregate production planning procedures, disaggregation methods in hierarchical production planning, master production scheduling, material requirements planning, lot-sizing, and capacity planning.

SCM 460: Purchasing and Materials Management

Purchasing policies, procedures, order specifications and agreements, supplier selection, and the role of purchasing in production planning and inventory management.

**All courses have prerequisites; see website for details.*

“The courses are demanding, but the course work remains relevant through the use of real-world scenarios, cases, and concepts that can easily be incorporated toward making process improvements in the Navy.”

— **Lieutenant Richard T.,
Naval Supply Systems Command**

Who Should Apply?

Companies in a variety of industries use SAP software solutions. As a graduate of the ERP Certificate with SAP program, you can prepare for positions such as:

- › SAP data analyst
- › SAP support analyst
- › supply chain professional
- › computer systems analyst
- › logistics analyst
- › program manager

Online Learning

Penn State World Campus designed this program to provide you with flexibility so you can complete your course work when and where it is most convenient for you. Courses are offered in a time frame comparable to a traditional semester schedule, with fixed start and end dates.

As a pioneer in online education, Penn State has developed a nationally recognized support system for students who are studying online. You will have access to an array of support services, including course scheduling assistance and academic advising, technical support offered by the friendly World Campus IT Service Desk staff, and career counseling with a licensed professional counselor.

“Penn State is one of the few universities that offer this program. The program is challenging, but with dedicated work and time, it can be a very rewarding certificate that can help you to obtain a job or build your résumé to move within your organization.”

— **Matthew N., Lead Buyer**
at **Bombardier Transportation**
