

# Earn an electrical engineering postbaccalaureate certificate online

21-WC-0900/sem1/ISS

The 9 credit Postbaccalaureate Certificate in Electrical Engineering, offered entirely online through Penn State World Campus, can help you expand your engineering knowledge base or focus on a specific interest.

You can learn to:

- › conceptualize, evaluate, and formulate electrical engineering solutions
- › perform the deep analyses required for defining and solving electrical problems
- › apply advanced techniques and use software simulation, such as MATLAB, to solve electrical engineering problems
