Take the next step with Penn State World Campus

Penn State World Campus is happy to announce that our alliance with the Federal Government gives federal employees, their spouses, and legal dependents the opportunity to enjoy distinct education benefits. As a Penn State World Campus student you will receive:

- a 5% reduction off our already competitive tuition rates for all World Campus courses and programs — with no program exclusions or out-of-state tuition rates
- access to academic advising, career counseling, and a financial literacy staff that specializes in serving working professionals
- a diploma that is identical to one received by any resident Penn State student

At Penn State World Campus, our goal is to make it possible for you to study where and when it’s most convenient. Our mission is to extend Penn State’s world-class educational opportunities to students who do not have access to one of our physical campuses. Penn State World Campus doesn’t offer online courses or online degrees. It offers courses and degrees in an online format. We deliver the type of convenience, reliability, and name recognition you can only get from a fully supported, fully accredited university like Penn State.

Many of the more than 125 programs Penn State World Campus offers are directly aligned with the governmentwide emphasis on Mission-Critical Occupations (MCO). Start accelerating your personal and professional growth today!

About Penn State World Campus

Proven Leadership in Online Delivery: Since our 1998 inception, Penn State World Campus has served students from all 50 states, more than 40 countries, and all 7 continents.

Online Experience: We offer more than 125 programs — almost entirely online — designed around best practices in online delivery and taught by faculty who have experience teaching in an online environment. Plus Penn State World Campus programs are asynchronous — you decide how and when to manage course work.

Accreditation: Penn State is accredited by the Middle States Association of Colleges and Schools and has an outstanding reputation as a research and teaching university. Plus many of our individual programs have earned additional accreditations through governing bodies in those particular fields of study.

Academic Reputation: Penn State is nationally recognized for its outstanding degree programs and has been named No. 1 for its online bachelor’s programs and in the top 10 for best online graduate programs in business, engineering, education, and computer information technology in the rankings by U.S. News & World Report published January 12, 2016. The complete list of 2016 awards includes:

- No. 1 online bachelor’s programs
- No. 4 online graduate engineering programs
- No. 4 online graduate computer information technology programs
- No. 6 online graduate education programs
- No. 7 online graduate business programs
- No. 7 online MBA program
